

Story ID	Issue Type	Feature Name	Summary
	Story	<b>MSR Event Hub Scaffold</b>	Engineering: multi-event support
	Story	<b>Baseline Admin Experience</b>	Admin: create & configure events
	Story	<b>Baseline Admin Experience</b>	Admin: manage agenda & sessions
	Story	<b>Baseline Admin Experience</b>	Admin: manage posters/projects
	Story	<b>Baseline Admin Experience</b>	Content validation & curation
	Story	<b>MSR Events Homepage</b>	List & promote events
	Story	<b>MSR Events Homepage</b>	Event card metadata
	Story	<b>MSR India Event Site</b>	Event home page
	Story	<b>MSR India Event Site</b>	About page
	Story	<b>MSR India Event Site</b>	Multi-day agenda with tracks/themes
	Story	<b>MSR India Event Site</b>	Session detail subpages (on-demand)
	Story	<b>Poster / Project Experience</b>	Poster hub page

	Story	<b>Poster / Project Experience</b>	Poster tiles
	Story	<b>Poster / Project Experience</b>	Project detail page
	Story	<b>Poster / Project Experience</b>	Venue context & discovery
	Story	<b>Bookmarking &amp; QR</b>	Generate QR codes for projects
	Story	<b>Bookmarking &amp; QR</b>	Scan to bookmark
	Story	<b>Bookmarking &amp; QR</b>	Bookmark list & post-event access
	Story	<b>KPIs, Analytics &amp; Launch Readiness</b>	Pre-event unique users
	Story	<b>KPIs, Analytics &amp; Launch Readiness</b>	Post-event unique users
	Story	<b>KPIs, Analytics &amp; Launch Readiness</b>	Extended-reach users
	Story	<b>KPIs, Analytics &amp; Launch Readiness</b>	Connections/leads initiated
	Story	<b>KPIs, Analytics &amp; Launch Readiness</b>	Adobe Analytics 1DS Configuration
	Story	<b>KPIs, Analytics &amp; Launch Readiness</b>	Platform KPIs
	Story	<b>MVP Authoring Agent (stretch goal)</b>	AI abstract assist (poster upload)
	Story	<b>MVP Event Agent (stretch goal)</b>	Base chat/copilot (event scope)

Role	Owner	Description
Engineer		As an engineer I want establish a scalable baseline platofrm in a single code base so that we can quickly and efficiently stand up new events
Admin		As an admin I want to create event sections with core pages so that I can launch MSR India and future programs
Admin		As an admin I want to add/update sessions with required data so that the agenda stays accurate pre- and post-event
Admin		As an admin I want to add/update posters with structured fields so that the hub displays consistent assets
Organizer		As an organizer I want to review and validate content before publishing so that data quality remains high
Attendee		As an attendee I want to see a list of upcoming and current MSR events on the homepage so that I can quickly navigate to the event I care about.
Organizer		As an organizer I can create and publish new event sites on the hub so they appear on the homepage
Attendee		As an attendee I want an event-specific home page modeled after RRS so that I can orient and access key sections
Attendee		As an attendee I want an About page with logistics so that I know the purpose, venue, and how to attend
Attendee		As an attendee I want to browse a multi-day agenda filtered by tracks or themes so that I can find sessions relevant to me
Attendee		As an attendee I want a session detail page so that I can watch the recording and access related assets
Attendee		As an attendee I want a poster hub page with optional themes so that I can browse posters by area of interest

Attendee		As an attendee I want visually scannable poster tiles so that I can quickly decide what to open
Presenter		As a presenter I want a structured project detail page so that our research is represented with high-quality digital assets
Attendee		As an attendee I want to locate posters within the venue so that I can plan my route during the event
Organizer		As an organizer I want auto-generated QR codes for each project so that attendees can bookmark quickly at the poster
Attendee		As an attendee I want to scan a poster's QR code and add it to my bookmarks so that I can revisit it post-event
Attendee		As an attendee I want a personal list of bookmarked projects so that I can follow up after the event
Product Owner		As a product owner I want metrics on pre-event visits so that we can measure early planning behavior
Product Owner		As a product owner I want post-event traffic metrics so that we can gauge durability of content
Product Owner		As a product owner I want geo/time-zone reach metrics so that we can validate value beyond live attendance
Product Owner		As a product owner I want to track follow-up actions so that we can measure collaboration sparks
Product Owner		As a product owner I want to ensure that we have metrics captured on all pages in the app so that we can measure engagement
Program Owner		As a program owner I want platform adoption metrics so that we can aim for default usage across MSR
Presenter		As a presenter I want to upload a poster PDF and receive suggested abstract edits so that our summary is clear and consistent
Attendee		As an attendee I want a simple chat based on abstracts so that I can explore research at a high level

Acceptance Criteria	Status
<ul style="list-style-type: none"> <li>• Baseline admin capabilities functionally equivalent to RRS</li> <li>• Multi event support that meets the needs of MSR India with a scalable baseline platform</li> </ul>	
<ul style="list-style-type: none"> <li>• Admin can create hub sections (home, about, agenda)</li> <li>• Set permissions for hub/event/session (if applicable)</li> </ul>	
<ul style="list-style-type: none"> <li>• Fields: title, abstract, speakers, date/time, duration, location, links</li> <li>• Toggle for Before vs After state</li> </ul>	
<ul style="list-style-type: none"> <li>• Supports poster entity fields (core identity, event context, people/contact, related links)</li> <li>• Bulk import optional</li> </ul>	
<ul style="list-style-type: none"> <li>• Workflow: Draft → Review → Published</li> <li>• Audit trail of changes</li> </ul>	
<ul style="list-style-type: none"> <li>• Homepage displays the following events with title, date/time, location (if available), and a "View event" CTA</li> <li>• Redmond Research Showcase</li> <li>• MSR India TAB</li> <li>• Project Green</li> <li>• Cambridge Research Showcase</li> <li>• MSR East: TBD</li> <li>• MSR Asia TAB (pending future discussions)</li> <li>• Lecture series: Whiteboard Wednesdays, AI &amp; Society Fellows, Leaders @ Microsoft</li> <li>• For events not hosted on the hub yet, the CTA links to an external event site</li> </ul>	
<ul style="list-style-type: none"> <li>• Card fields: name, dates, optional tracks/themes</li> <li>• Cards render consistently across desktop / mobile</li> <li>* Admin can add event metadata and homepage updates automatically</li> </ul>	
<ul style="list-style-type: none"> <li>• Hero + quick links (About, Agenda, Posters, Sessions)</li> </ul>	
<ul style="list-style-type: none"> <li>• Overview, venue, dates/times, registration/Teams link (pre-event), embedded talk (after-event)</li> <li>• Map/address block, if in-person</li> </ul>	
<ul style="list-style-type: none"> <li>• Multi-day agendas</li> <li>• Filter by tracks/themes</li> <li>• Session data includes title, abstract preview, speaker(s), date/time, duration, location, links to decks, related papers, repos, etc.</li> </ul>	
<ul style="list-style-type: none"> <li>• Generate subpage from agenda data</li> <li>• Before: Teams link + date/time/location</li> <li>• After: embedded recording</li> <li>• Related assets: decks, papers, repos</li> </ul>	
<ul style="list-style-type: none"> <li>• List all posters</li> <li>• Optional theme grouping (RRS model)</li> </ul>	

<ul style="list-style-type: none"> <li>• Tile includes title, theme/track, thumbnail, team preview</li> <li>• Click opens project detail</li> </ul>	
<ul style="list-style-type: none"> <li>• Required: title, abstract, team list (name, title, image, email), contact</li> <li>• Optional: image, embedded video</li> <li>• Links: repos, decks, papers, project sites</li> </ul>	
<ul style="list-style-type: none"> <li>• Location field supports room/booth/floor</li> <li>• Search/browse by area/title/location</li> </ul>	
<ul style="list-style-type: none"> <li>• Assign human-readable project IDs</li> <li>• QR resolves to project detail page</li> </ul>	
<ul style="list-style-type: none"> <li>• Scan creates bookmark</li> <li>• Confirmation toast/state change</li> </ul>	
<ul style="list-style-type: none"> <li>• 'My Bookmarks' page</li> <li>• Quick links to repos, papers, contacts</li> </ul>	
<ul style="list-style-type: none"> <li>• Report: % registered/expected attendees visiting before Day 1</li> </ul>	
<ul style="list-style-type: none"> <li>• Report: % of promoted audience visiting within 7/30 days</li> </ul>	
<ul style="list-style-type: none"> <li>• Report: % unique users outside primary geo/time zone</li> </ul>	
<ul style="list-style-type: none"> <li>• Count email/contact clicks, repo visits, asset downloads</li> </ul>	
<ul style="list-style-type: none"> <li>• 1DS code is present and working</li> </ul>	
<ul style="list-style-type: none"> <li>• Events onboarded/quarter</li> <li>• Repeat program usage %</li> <li>• Organizer self-service rate</li> <li>• Post-event content usage %</li> <li>• Cross-event engagement %</li> </ul>	
<ul style="list-style-type: none"> <li>• Upload triggers AI suggestions</li> <li>• Presenter approves/modifies</li> </ul>	
<ul style="list-style-type: none"> <li>• Q&amp;A constrained to published abstracts/metadata</li> <li>• Labeled 'beta'</li> </ul>
